

## Valued Partners,

Nice | HySecurity is making improvements to our SmartCNX™ controller, Drive Module, and I/O Expansion that require us to issue new part numbers.

### What's Changed

We are adding additional installation instructions to clarify requirements for software compatibility, and adding a USB drive with updated software as part of the installation kit.

Old Part Number	Old Description	New Part Number	New Description
MX4345	Controller, SmartCNX™	MX5184	Controller Replacement Kit, SmartCNX™
MX4285	Module, Motor Drive	MX5185	Motor Drive Module Replacement Kit
MX4347	Module, I/O Expansion	MX5183	Module, I/O Expansion Replacement Kit

Pricing for the new part numbers is unchanged.

### Critical Dates

The changes are effective immediately. Existing orders for the old part numbers will automatically be updated to the new part numbers.
