

Linear LV-PVM26HRW-B

26" LED-Backlit LCD PVM Public View Security Monitor

Linear's security monitor collection offers a complete range of solutions to meet virtually any requirements for video surveillance. The 26" LED-backlit PVM couples a slim widescreen frame design, 800 TV line color display resolution and a built-in 690 TV line camera to provide instant awareness to customers that the business has surveillance in place.

Advanced features such as a built-in SD card for displaying 'digital messaging' when the motion detector is not active. Featuring flexible options for inputs and outputs, a 3000:1 contrast ratio, on-screen menu displays (OSD) in multiple languages, and VESA-mount interfaces.

Linear's **LV-PVM26HRW-B** is an exceptional choice for crisp, sharp image display paired with commercial business Public View video surveillance.

Features

- LED backlight saves up to 40% on electricity costs
- Slim and attractive metal widescreen housing
- Protective glass screen surface
- Camera loop output (BNC)
- Auto-switching between camera and messaging
- IR remote control included
- Advanced 3D comb filter and de-interlace technology
- 2-axis camera adjustment with easy accessibility
- Full function remote control included
- Includes rear connector protection cover
